# SATELLITE L300/L300D

## The 15.4" basic all-rounder

The DVD Super Multi drive with Double Layer support for extra storage makes editing, sharing and backing up data easy and painless.

The integrated high-resolution VGA web camera allows you to communicate easily with your friends and send them pictures while chatting.

Discover easy mobile computing while enjoying an eye-catching laptop design.

This great value, quality laptop serves all your basic computing needs and offers you great performance packed with some astonishing features. Our passion for innovation includes introducing the best value notebooks as well the latest technologies, and the result is the combination of performance, style and ease of use with affordability. The latest innovative Toshiba EasyMedia features for the smartest digital experience are also included as standard because you shouldn't have to pay extra for ease of use.

TOSHIBA EASY MEDIA

### UNCOMPROMISED MOBILITY

Everything you would expect from Toshiba and more...includes Wireless LAN and our unique Diversity Antenna to help you find a connectivity signal where many other laptops can't.

### EASY LOGIN

The integrated Toshiba Face Recognition allows you to log-in easily and makes sure that only authorised users get access to your machine.

### BRILLIANT DISPLAY

Bring images and movies to life thanks to the Toshiba TruBrite® technology for improved display contrast and clarity.

# Toshiba recommends Windows Vista® Home Premium

Dealer stamp:

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: computers.toshiba-europe.com and/or contact Toshiba Technical Support. • Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. • Part of the main system memory may be used by the graphics system and therefore reduce the amount of main system memory available. • For PCs configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. • For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service provider. • One GB means one billion bytes, accessible capacity may be less. • Wired and wireless communication capabilities to be applied in countries where approved. • Battery life may vary depending on applications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba web site at computers.toshiba-europe.com. • Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. • Weight may vary depending on product configuration, vendor components, manufacturing variability and options selected. • Please check your system specifications to ensure optimal results. • Certain notebook chassis are designed to accommodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook chassis.

TE3 March 2008, Art. No. EN_SatL300_DataS_Mar08. Microsoft, Windows and Windows Vista are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. All trademarks are acknowledged. Product specifications, configurations, prices and system, component/options availability are all subject to change without notice. Product design specifications and colours are subject to change without notice and may vary from those shown. Errors and omissions excepted.
